### III- Reading Comprehension

#### Read the following passage then answer the questions:

There is a great advance in the field of medicine, nowadays. For example, X-rays enable doctors to see inside our bodies. So, they became more able to describe the illness and prescribe the right cure. Modernized medical equipment helped those doctors to do operations that were impossible, few years ago. For example, they can now replace damaged hearts, lungs and other organs. Really doctors are working day and night for the sake of humanity. They have declared war against fatal diseases such as bird flu and swine flu. Different countries spend huge amounts of money on medical research to produce new and effective drugs. Money is a means and not an end in itself. So, we all have to believe that health is better than wealth.
